### EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

1. This Office Action is responsive to Applicant's Amendment filed on 12/06/04. Claim 18 has been canceled accordingly.

2. Claims 1-17 are allowed.

3. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record does not disclose or render obvious a motivation to provide for a control method for a vehicle having a torque converter coupled between an internal combustion engine and a transmission as defined by the limitations of claims 1 and 10, including a step of adjusting an operating parameter to control a change in an engine output such that the change in the engine output is less than a rate of change limit, which is selected based on both a driver request and a speed ratio across the torque converter input and output speeds.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### *Cited Prior Art*

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Sakakibara et al.'433, Hasegawa et al.'266, Hosseini et al.'161, and Hasegawa et al.'915 which each shows a control system in a vehicle having a torque converter coupled between an engine and a transmission, the control system including an engine control based on the operating conditions of the transmission.
